

6001 SERIES

Straight Line Action Clamps | Product Overview

Features:

- Heavier duty version of Model 601 with 50% more holding capacity
- Mounting pattern interchangeable with Model 601
- Allow handle to fall below mounting plane to lock in retracted position

Applications:

- Assembly
- Testing
- Soldering
- Gluing

Also Available:

See page MC-ACC-1 for accessories

6015 SERIES

Straight Line Action Clamps | Product Overview

Features:

- Smallest of the solid base Straight Line Action clamps
- Compact design combined with high holding capacity
- Allow handle to fall below mounting plane to lock in retracted position

Applications:

- Assembly
- Checking fixtures
- Tensioning devices

Also Available:

See page MC-ACC-1 for accessories

5150 SERIES

Heavy-Duty Straight Line Action Clamps | Product Overview

Features:

- Square plunger provides positive radial location
- Reverse action allows the handle to stay out of the work zone
- Hardened steel pivot pins and bushings provide long life
- Black oxide finish with hardened plungers

Applications:

- Welding fixtures
- Assembly fixtures
- Light machining

602, 604, 624 SERIES

Straight Line Action Clamps | Product Overview

Features:

- Versatile and compact straight line action clamps
- Threaded body for through hole mounting
- Stainless Steel **-SS** models available
- Toggle Lock Plus™ **-R** versions available (604, 624 only)
- 5 handle colors - see page MC-PRO-7 for details

Applications:

- Assembly
- Checking fixtures
- Welding fixtures
- Tensioning devices

Also Available:

See page MC-ACC-1 for accessories

6002, 6004, 6024 SERIES

Straight Line Action Clamps | Product Overview

Features:

- Similar size to the 602/604/624 Series with solid body
- 2-3 times more holding capacity than 602/604/624 in a similar envelope size
- Mounts through a hole or in a tapped hole
- Toggle Lock Plus™ -R versions available
- Stainless Steel -SS versions available
- Locks over center in the extended/retracted position
- 5 handle colors - see page MC-PRO-7 for details

Covered under one or more U.S./International Patents

Applications:

- Assembly
- Checking fixtures
- Welding fixtures
- Tensioning devices

Also Available:

See page MC-ACC-1 for accessories

ⓘ This item is available upon request

The unique feature of these clamps is the collet-type bushing that can be adjusted to eliminate plunger end movement after long repeated use. The plunger also has a flat which prevents lateral movement and allows offset piloting and holding. The plunger is drilled and tapped for threaded spindles or custom fixturing.

The adjustable pre-load nut (PL) can be used to lock the clamp against itself when not under pressure and therefore prevent opening when mounted vertically. The spring hold-open device (S) prevents the clamp from accidentally closing.

The mounting base (B) is supplied disassembled with the four models, to enable welding the base and the main assembly in any handle position.

Series 675 and 695 (shorter stroke) reach the over-center position only when clamping. Series 670 and 690 (longer stroke) lock in both the extended and retracted position.
